

#Smartmigration

If you are thinking about migrating, take time to think about it carefully. Here are some questions to help you.

Who: Who is impacted by your decision? Just you? You and your family? Who could help you think about options?

What: What is motivating you to migrate or not migrate? What are you hoping the future will look like? What resources (like time, money, health, legal papers, etc.) do you have or would you need to migrate? What are the pros and cons of migrating and not migrating? Think through both the good and the bad.

When: When did you first start considering migration? When do you have to decide about migrating? By when would you need to apply for a visa or other documents?

Where: Where do you want to go? Do you know the place? The language? The culture?

Why: Why do you want to migrate? Be sure to have a very clear reason. Is this the best thing for all people involved? Are there other options at home that could also lead to a good life?
